

GOUNH Used Paper Recycling Initiatives

2016 - 2018

Used papers were gathered and collected from copy centers. By the end of 2018, 1.5 ton of papers were ready to be recycled!

Aug 2018

After thorough assessment, **CORELEX Vietnam** was chosen to be our partner in recycling waste papers. CORELEX is a leading recycled paper manufacturer and at the cutting edge of paper recycling industry in Asia (Japan, Vietnam...)

Office used papers were piled up over nearly 2 years, sorted, and transported to the factory of CORELEX.

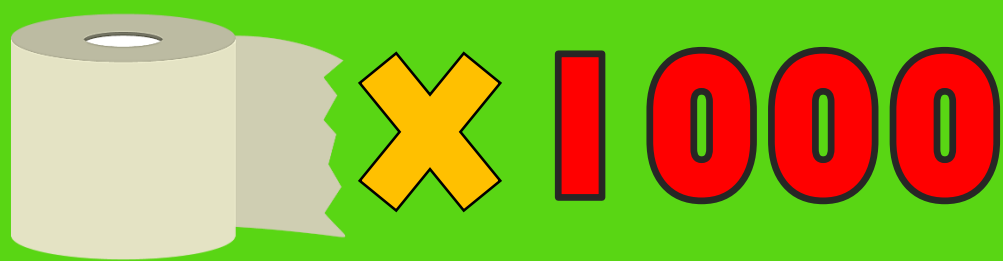

Jan 2019

Used papers were then processed and “transformed” into toilet papers at the factory. More information about the process can be found here:

<http://corelexvn.com/company-production>

In compensation, the GOUNH Common Service Unit received 1000 rolls of toilet papers.

The toilet paper rolls recycled from our waste papers are ready to be used in the GOUNH!
